Subject: BDCP CWA 404 framework discussion

All – Due to the Thanksgiving Holiday our regularly scheduled coordination meeting on November 24th will be cancelled. I would like to re-schedule the meeting for the week of November 28th. This meeting will be devoted to discussing and developing the most productive and efficient framework for the CWA 404 permitting process. Attached is a "Proposed Regulatory Approach to Permitting BDCP Activities Under Section 404 of the Clean Water Act" document that was distributed at today's meeting for discussion. It was agreed that EPA and the Corps would review and send out comments for the group to consider at the next meeting. Below is the link to a Doodle Poll for the best meeting date and time. I know everyone is busy with meetings so it may be hard to find a time that works for all. However, I'd like to keep the momentum going and continue to make progress.

Thanks to all for your participation. Have a good weekend, Cassandra
